

ANGELO PRINCIPIO

FULL STACK DEVELOPER

principio.ap@gmail.com | +921-5372-220 | Central Luzon, Sta. Maria Bulacan

pa-whiskers.vercel.app

SUMMARY

Full Stack Developer with experience building automation-driven web applications that optimize business processes and operational efficiency. Skilled in Next.js, TypeScript, Python, Java, and PostgreSQL, with expertise in database design, ORM/JPA, testing automation, and AI-assisted development.

TECHNICAL SKILLS

- Languages & Frameworks: JavaScript, TypeScript, Python, Java, C#, HTML5, CSS3, React.js, Next.js, Node.js, Tailwind CSS
- Databases, Tools & AI: PostgreSQL, MySQL, Supabase, MSSQL, Postman, Playwright, Git, GitHub, ChatGPT, Claude, Copilot, Cursor, Perplexity

PROFESSIONAL EXPERIENCE

Full-Stack Developer (OJT) — SP Madrid

March 2026 - June 2026

- Built a **FastAPI + PostgreSQL** automation backend for approximately **500 employees data**, using **SQLAlchemy and Alembic** to streamline data processing and maintain reliable, version-controlled records.
- Engineered a **100-point automated performance scoring system** using **Python, PostgreSQL**, and **role-based access control**, replacing manual score computation with structured calculations, approval workflows, and audit trails **across 4 user roles**.

PROJECTS

Be Fit Era (Running App) - be-fit-era.vercel.app

March 2026 - August 2026

- Integrated **PayMongo checkout** and **Strava OAuth using secure webhooks**, duplicate-payment prevention, and an automated recovery system for missed deliveries, while enforcing race limits via database functions and verifying code through a **361-test suite (Vitest, Playwright, and k6)**.

Boji-AI (AI-powered job assistant) - boji-ai.vercel.app

June 2026 - July 2026

- AI career-assistant platform on React/Express/TypeScript — ATS scorer (**11 weighted factors totaling 100 points**, split 50/50 with job-description keyword coverage), Gemini-based mock interview scored across 4 dimensions (quality, grammar, latency, pressure), backed by **500+ Vitest unit tests**.

EDUCATION

Information Technology

October 2022 – September 2026

Polytechnic University of the Philippines Santa Maria Bulacan Campus (PUP SMB)

- **D.Creatives**, Backend 2025 – 2026
 - Developed a full-stack reservation platform using **Next.js, Node.js, TypeScript, and PostgreSQL**, implementing scalable **REST APIs**, **AI-powered** face swap feature using **Hugging Face**, and achieved positive usability feedback from **30+ test users** for the feature and overall application responsiveness.

CERTIFICATIONS/ACTIVITIES

Certifications:

- Salesforce Supported Virtual Internship Program 2025 - Philippines
- Introduction to Modern AI (Cisco)
- Introduction to Cybersecurity (Cisco)
- Python Essentials 1 (Cisco)
- Google AI Professional Certificate (Google)

Awards/Activities:

- Cursor Manila Hacksprint (Hackathon)
- Participant I Trend Micro uCTF 2023 (Team A1SBERG)
- GDG Manila: Beyond the Prompt & Next Gen Builders (Hackathon + Workshop)
